

# LLC “**MODERN COMMUNICATION AND AUTOMATION SYSTEMS**”

**LLC “Modern Communication and Automation Systems” specializes on the supply of power equipment, industrial automation, electrical control and instrumentation, pumping equipment, electric motors and drive units**

**We carry out warranty, post-warranty maintenance and repair of the produced equipment**

**The main solutions we offer:**

- **selection of all necessary equipment for the project;**
- **configuration of control cabinets;**
- **development and implementation of automation projects;**
- **modernization of production processes;**
- **delivery of spare parts and component parts**

## LLC “MODERN COMMUNICATION AND AUTOMATION SYSTEMS”

### Our specialization:

- **Electrical Control and Instrumentation (EC&I);**
- **Computerized process control systems;**
- **Automated Power Supply Control Systems;**
- **Electric equipment, low and high voltage equipment;**
- **Block boxes, portable constructions;**
- **In-line equipment and teleautomatics;**
- **Fitting and assembly tools;**
- **Venting equipment (split system air conditioning units, air and heat curtains, combined extract and input systems, electric space heating;**
- **Load lifting appliances;**
- **Electrical substations, switch-yards;**
- **Switchboard rooms;**
